Hi Anastasia,

Thank you again for the extension.

Here is a statement you can attribute to a university spokesperson:

This is still in the proposal stage and is working its way through the internal review process. It will be a few weeks before we determine what we will move forward to USM for consideration. We remain very sensitive to the needs and concerns of our graduate students and will take our review of the Student Fee Committee's recommendations very seriously as we weigh input from all sides.

We look forward to seeing your story. When do you expect it to be up?

Thanks and have a nice weekend,
Rebecca
